		<p>I do not want <u>any</u> mining or dumping of uranium waste in South Dakota – period.</p> <p>Last bullet; last sentence: <i>This project should be <u>stopped until it can be proved to be safe</u>, rather than relying on imperfect protection and clean-up processes.</i></p>
82	Ex. 6 Personal Privacy (PP)	<p>Postcard</p> <p>Added & edited text</p> <p>We've already spent enough on cleaning up and it hasn't been done.</p> <p>5th bullet:</p> <p>The proposed mine and deep disposal wells are in an area that is documented to have faults, <u>fractures, breccia pipes, and over 7000 old boreholes that have not been properly plugged. It will be impossible to contain mining fluids or waste liquids, and contamination of our groundwater is very likely.</u></p>
